WORK EXPERIENCE

Gate Gourmet

Newark, NJ, USA

Full Stack Developer

Feb 2024 – Nov 2024

- Developed a **meal pre-scheduling system** using **MERN** with secure APIs, role-based access, and **Redis caching** for 30% faster responses.
- Created an **inventory system** using **React.JS**, **Django**, **SQLite**, and **React Chart.js** for data visualization.
- Designed user-friendly interfaces with **Framer Motion**, **Figma**, and **Material-UI**, enhancing engagement by 20%.

Friends of Health

Mumbai, MH, India

Full Stack Developer

Dec 2021 – July 2023

- Built a **MERN stack** website with **doctor profiles**, **appointment booking**, and a **blog system**.
- Developed responsive, **Material-UI**-based interfaces and integrated **Firebase** for secure storage.
- Improved state management and efficiency with **Redux**, reducing data load times by 20%.

i2e Consulting Pvt. Ltd.

Mumbai, MH, India

Web Developer Intern

Mar 2021 – Nov 2021

- Maintained and updated the **corporate website** using **WordPress Elementor**.
- Built "**Pats!**" platform with **React.JS**, **PHP**, and **MySQL**, featuring gamification and gratitude-sharing features.
- Created **newsletters** with **Microsoft Dynamics** for seamless internal and external communication.

CD Consultancy & Services

Mumbai, MH, India

Full Stack Web Developer

Mar 2019 – Feb 2021

- Designed the **Covi Check website** with **PHP**, **AJAX**, and real-time updates for COVID-19 data.
- Built interactive maps and role-based access using **bcrypt.js** and **Google Charts**.
- Managed **MySQL** databases for secure data storage and analytics.

PROJECTS

Portfolio Website

- Developed a **dynamic portfolio** with **React.JS**, **Tailwind CSS**, and **Framer Motion** animations.
- Integrated a contact form using **EmailJS** and optimized deployment via **GitHub Pages** and **Cloudflare DNS**.

Solar Management System

- Designed a **MERN stack** tool with modules for **inspectors**, **managers**, **engineers**, and **customers**.
- Created role-based workflows, **MongoDB** data pipelines, and React interfaces with **Material-UI**.
- Enhanced API performance by 40% using **Redis** caching.

Mental Health Support System

- Developed a **MERN-based** wellness platform with **5+ modules**, including **meditation**, **games**, and **support group chat**.
- Built real-time group chat using **WebSocket** and **MongoDB** for seamless communication.
- Designed **meditation**, **drawing modules**, **mood journals**, and **wellness** to enhance user engagement and creative expression.
- Optimized performance with **Redis** caching for faster module load times.
